

REMEDIAL SITE ASSESSMENT DECISION - EPA REGION 3

430510

Site Name: Conoco Inc Baltimore Term EPA ID#: MDD003065984 DSN: MD-110
 Alias Site Names: _____
 City: Baltimore County: Baltimore City State: MD
 Refer to Report Dated: May 2001 Report Type: Site Survey
 Report Developed by: MDE

DECISION:

☒ 1. Further Remedial Site Assessment under CERCLA (Superfund) is not required because:

<input checked="" type="checkbox"/> 1a. Site does not qualify for further remedial site assessment under CERCLA (No Further Remedial Action Planned - NFRAP)	<input type="checkbox"/> 1b. Site may qualify for further action, but is deferred to: <input type="checkbox"/> RCRA <input type="checkbox"/> NRC
---	--

☐ 2. Further Assessment Needed Under CERCLA: 2a. (optional) Priority: ☐ Higher ☐ Lower

2b. Activity Type:	<input type="checkbox"/> PA <input type="checkbox"/> SI	<input type="checkbox"/> ESI <input type="checkbox"/> HRS evaluation	<input type="checkbox"/> Other: _____
--------------------	--	---	---------------------------------------

DISCUSSION/RATIONALE:

This site is used for storage and distribution of bulk petroleum products. In 1984, MDE conducted a Preliminary Assessment of the property due to the concern that leaded tank bottoms were buried onsite during the facility's operation. There was no visual evidence of such disposal; however, no environmental sampling was done. The groundwater beneath the site is contaminated with petroleum related products. MDE's Oil Control Program is currently regulating the monitoring and remediation of this problem. Since MDE is involved in the remediation of the groundwater, and because petroleum-related products are not considered a CERCLA hazardous substance, further remedial site assessment under CERCLA is not required.
